

# ZebraDesigner™ for XML

Label Design Application

## Powerful Features in an Easy-to-Use Package

ZebraDesigner for XML offers both the label design features and printer configuration tools that enable printing. The easy to use variable wizard makes it simple to link variable information to text, bar code and RFID tags on the label. Graphics and fonts can be easily downloaded to the printer to accelerate throughput while allowing for label design flexibility.

Once label designs are complete, the label template can be distributed to one or many printers with a single click. As new labeling needs emerge, it's "click-simple" to create or edit existing designs. Designing a label has never been easier!

## Be in control with versatile, simple tools.

Built on an entirely new platform and offering the most frequently needed features, ZebraDesigner for XML introduces a new level of access to printer capabilities than previously available. New printer configuration tools allow for greater control over printer settings and memory. Installation is easy; you no longer need a hardware key to get started. And you can count on the optimized printer drivers to fully leverage the power and flexibility of Zebra's printers. When you add it all up—ZebraDesigner for XML delivers.

Featuring an intuitive, Windows®-based interface and a WYSIWYG label designer, ZebraDesigner for XML makes creating complex bar code label designs and format changes "click" simple. All XML-enabled Zebra printers are supported.

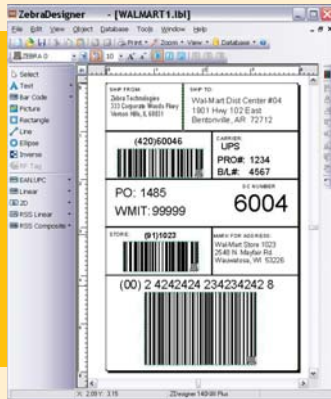

ZebraDesigner for XML supports the following User Interface languages:

- Danish
- English
- Finnish
- French
- German
- Hebrew
- Italian
- Japanese
- Polish
- Portuguese
- Russian
- Simplified Chinese
- Spanish
- Thai
- Traditional Chinese
- Ukrainian

# ZebraDesigner for XML

## 1 Design

With the help of the software's new design and RFID wizards, it's easy to create complex labels based on fixed or variable data

## 2 Deploy

The design distribution wizard makes it easy to send label templates to one or many printers with a single click

## 3 Print

Once labels are resident within the printer, send XML data streams to print labels

- Supported Operating Systems: 98SE/NT/2000/XP/2003
- For use with XML-enabled printers only
- Use ZebraNet™ Bridge Enterprise to enhance your printer management capabilities (free version included)
